

# CONSTANTE DEL PLATO DIVISOR

$$K = 40$$

$$Z = 13$$

$$V.M = \frac{K}{Z} = \frac{40}{13} = 3.07 \approx 3 \cdot \frac{1}{13} = 3 \cdot \frac{1 \times 3}{13 \times 3} = 3 \cdot \frac{3}{39}$$

$$k = 40 \quad V.M. = \frac{k}{z} = \frac{40}{13} = 3 \cdot \frac{1}{13} = 3 \cdot \frac{1 \times 3}{13 \times 3} = 3 \cdot \frac{3}{39}$$

$$z = 13$$

$$\phi_{\text{EXT}} = 65 \text{ mm}$$
